WORK EXPERIENCE

IT Support Intern
DPWH Region III

February – May 2026

- Assisted during seminars and technical presentations, ensuring smooth audio-visual operation and technical support.
- Supported printer and network troubleshooting activities, restoring communication between devices and office systems.
- Collaborated with the ICTS team on daily technical operations, improving efficiency in handling support requests.

Digital Asset Designer
Minecraft Multiplayer Server

September 2023 – February 2026

- Designed custom GUI layouts and in-game HUD elements using Adobe Photoshop, enhancing the server’s visual identity and player experience.
- Created custom resource pack assets and 3D models for in-game items, blocks, and interfaces, enhancing the server’s visual immersion and uniqueness.
- Developed gameplay-related scripts and configurations, improving player interaction and feature functionality.

Junior Graphic Artist
MSM Color Drops Printing Service

February 2022 – May 2022

- Designed layouts for print materials including tarpaulins, mugs, lanyards, IDs, and promotional items, ensuring visually consistent and client-ready outputs.
- Assisted in printing, finishing, and quality control processes, helping maintain production efficiency and output quality.
- Coordinated with clients and production team members, ensuring accurate design execution and timely project delivery.

EDUCATION

Bachelor of Science in Computer Engineering
Pampanga State University
